Inchone appointed distributor for Sky Software

Inchone has been appointed as a distributor for Sky Software Pty Ltd. Sky Software Pty Ltd, is Australia's leading provider of cloud-based student management and online accounting solutions. Sky Software provides enterprise solutions to the education sector. One of their flagship product is Sky PEPi, an enterprise Student Management Software which has been used widely in Australia and New Zealand and which they are also making available to countries in Asia Pacific region.

In addition to Sky PEPi, Sky also provides Blue Sky, which is an "Off the Shelf" cloud-based solution for smaller providers. Other solutions by Sky Software includes : Student Portal, Sky Forum, Sky Learning, ToolTwist and many others.

Inchone's new Learning Management System now available

We are very pleased to announce the release of our new Learning Management System (LMS). This new LMS builds on our experiences in providing eLearning solutions to the corporate sectors in the past 12 years. With the new system, it will be able not only to manage eLearning, but also class-room training, certifications, thus encompassing training management functions. It also includes authoring tools for content, quizzes, feedbacks etc..

New functions include –

- Content Authoring. This new LMS allows the user to create simple content with built-in templates
- Quiz Module. This module has been completely revamped to provide built-in templates for easy quiz creation
- Competency and Learning Path Management
- Resource Management
- Email Notifications

and others
